Burlington Water Resources would like to remind you that our annual hydrant flushing has commenced. This is an opportunity to make sure all hydrants are in working order and our distribution system is delivering the best possible water to your home. To view our interactive hydrant map, learn more about the flushing process or see the updated list of locations where we will be flushing each day, please visit <http://burlingtonvt.gov/DPW/Water>. As always, the best place to get real time information about what is happening with the water is to call us at 863-4501. We are here for you 24/7!

Join the Two-Week Way to Go! Challenge May 4-15!
